## HGI's Geophysical Happy Hour 2023

The HGI Happy Hour is back!

Take a break and come to our happy hour for instant relaxation and riveting topics! As geophysicists, geologists, hydrologists, and engineers, we are notoriously interesting people with great stories to tell. Come and share your exploits and have some food and drinks with us.

Let us know if you are coming! Send RSVP to [scalendine@hgiworld.com](mailto:scalendine@hgiworld.com)

## The Details

hydroGEOPHYSICS is hosting an exclusive happy hour event at the University Hills Community Center on the UC Irvine campus on:

**March 23, 2023, from 5:00 – 7:00 pm.**

The event will showcase HGI's latest and greatest geophysical technologies for subsurface imaging, including our airborne electromagnetic imaging (AEM) and audio-frequency magnetotellurics (CSAMT, AMT) capabilities for groundwater and exploration sectors, geotechnical support services, geophysical liner leak location methods, and some of our engineering geophysical support services.

Our event will have a hosted bar, hors d'oeuvres, and feature 10-minute flash presentations from Dr. Nigel Crook and Shawn Calendine - each presentation will be bracketed by ample time to mingle with fellow professionals in the consulting industry.

### *The place.*

**University Hills Community Center  
UC Irvine  
1083 California Ave, Irvine, CA 92617**

**The venue has ample free parking, easily accessible off the 73.**
