

May 2022 Regional Meeting

SoFi Stadium: HOME OF THE RAMS/CHARGERS

\$125 CalGeo Member (or Member's Guest) | \$50 Student

The Geotechnics of a \$5 Billion NFL Stadium

Presented by Pirooz Kashighandi, PhD, GE | Senior Engineer at Group Delta

Join us as Pirooz Kashighandi, the lead geotechnical engineer on SoFi Stadium, discusses:

- Site history and project development
- Major ground motions study with consideration of the extremely near-field Newport-Inglewood fault
- One of the largest MSE wall excavations due to FAA height restrictions
- Seismic aspects of the design of a 1,700-ft long “base-isolated” roof
- Blade Columns Foundation Design through 90-ft high MSE Wall
- Augercast and CIDH pile load testing program for the stadium

REGISTRATION INCLUDES PARKING, DINNER, DRINKS, TALK, AND TOUR.
