

# CALIFORNIA PREVAILING WAGE UPDATE & SKILLED AND TRAINED WORKFORCE SEMINAR

TUESDAY, AUGUST 16 | 9 AM - NOON | VIRTUAL

9 AM VAN ALLYN GOODWIN & RICHARD LEASIA 10 AM RICHARD PEREZ 11 AM COMBINED Q&A

**REGISTER**

MEMBERS \$100

NONMEMBERS \$250

*California Prevailing Wage law continues to evolve and present new challenges to employers. For some projects, California's new experiment with "skilled and trained" workforces are adding hurdles to public works compliance. California's "skilled and trained" workforce requirements have been on the books for years but are now seeing a substantial increase in state enforcement activity. Noncompliant contractors can face steep fines and even debarment. Hear from Littler Mendelson, the largest law firm in the world representing only employers in labor and employment law matters.*

**VAN ALLYN GOODWIN**  
Special Counsel

**RICHARD "DICK" LEASIA**  
Shareholder

*Littler Mendelson PC*

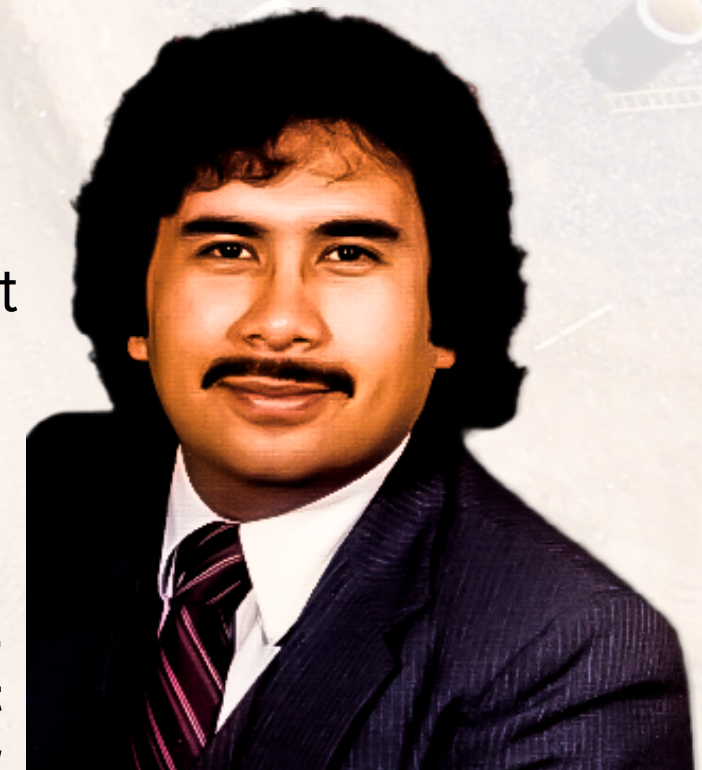

**Van and Sean will address how the following questions apply to the geotechnical industry and how your firm can put itself in the best position for compliance:**

- What are the new developments in California Prevailing Wage law?
- What are the "skilled and trained workforce" requirements of the Public Contracts Code?
- Which state and local laws implement these requirements for construction projects?
- How does a contractor comply with these requirements, before and after the bid?
- What are the consequences of noncompliance?

**From his firm's extensive experience in monitoring public works projects and representing awarding bodies (district, city, state, and nonprofit), Richard will address:**

- California Division of Apprenticeship Standards (DAS) Requirements
- Davis-Bacon and Related Acts (DBRA) federally funded projects—projects subject to both federal and state requirements
- DIR Wage Determinations
- Project Labor Agreements

**RICHARD PEREZ**  
Prevailing Wage & Labor Specialist  
*Labor Consultants of California*
