

SECURING & STABILIZING STRUCTURES

THURSDAY, SEPTEMBER 8 | NOON - 1 PM | ZOOM

REGISTER NOW

Mike Miller
Project Manager

Mike Miller's Presentation Will Describe Parameters for Implementation and Use Case Studies to Address:

- Soil Stabilization Through Grout Injection
- Secure Underpinning with Steel Piers

ABOUT MIKE MILLER

A licensed CA concrete contractor since 1990, Mike used to run a concrete art studio specializing in creating themed environments out of concrete, glass, and steel. His resume includes The Forum Shops at Caesars Palace - Las Vegas and Shrek's Kingdom of Far, Far Away in Universal Studios - Singapore. He has formulated urethanes, other resins, and concrete products for manufacturers.

ABOUT EAGLELIFT

As a foundation repair company in California and Nevada with over 20 years of experience, EagleLIFT has been providing quality engineering services in the areas of foundation repair, soil stabilization, crawl space solutions, and major commercial construction projects.
