

MODEL 4540 & MODEL 4590 EGAUGES

NUCLEAR DENSITY GAUGES EXEMPT FROM LICENSING IN THE UNITED STATES

THURSDAY, SEPTEMBER 15 | 11:30 AM - 12:30 PM | ZOOM

REGISTER NOW

Rich Minor - CA, AZ, NV Territory Manager and Robyn Myers - Tech Support, Training Specialist at Troxler will discuss egauge features:

- License exempt status in USA; similar procedures to licensed gauges
- Meet ASTM standards D8167, D2950 and D8153
- Repeatable and reproducible results that meets industry standards
- Very safe to be around, reduced exposure
- No storage requirements
- Measures density of asphalt, density, and moisture of soil materials
- Density uses proven nuclear measurement technology
- Moisture system uses electromagnetic technology – offset recommended
- Used by many government agencies; in approval stages at many DOTs
