

LOSS PREVENTION SEMINAR 2023

SATURDAY, JANUARY 28 | 8 AM – NOON | ZOOM

4 ICC-APPROVED HOURS OF EDUCATION (0.4 CEU)

REGISTER NOW

MEMBER	\$100
NON-MEMBER	\$250

CalGeo is providing four hours of ICC-approved training to support field technicians and other field staff in their inspection work, reducing liability for them and the company.

Four Segments with Breaks and Raffle Prize Drawings In-Between

- Two segments will detail four different job site quality control topics, with 10-15 minutes for presentation and Q&A on each topic.

IBC Special Inspection for Helical/Push Pile Systems

Geogrid Installation Procedures

Achieving a Workable Subgrade (Dewatering)

Testing and Inspecting Chemically Stabilized Soil

AC Inspection

Construction Staking

Reading E-gauges

Rock Stabilization

- One full segment will feature an in-depth presentation on Hillside Grading Quality Control.
- A final segment will use a different learning method, role-play (interactions between an inspector, a contractor, and a geotech), to guide course participants on how to better navigate Communicating Common Inspection Failures.
