

THE ENHANCED LATERAL DRAINAGE GEOSYNTHETIC, MIRAFI H2Ri

TUESDAY, DECEMBER 12 | 11 AM – NOON | ZOOM

0.1 ICC-APPROVED CEU AVAILABLE

REGISTER NOW

KAELI FRECHETTE

Engineering Business Manager
Solmax

SUMMARY

Join Kaeli to earn ICC credit as you learn about about the enhanced lateral drainage geosynthetic H2Ri. She will cover the components of the H2Ri product, product applications, third-party testing, and technical case studies. The H2Ri product is used most commonly in roadway applications to stabilize soft soils and continuously move water laterally through a pavement section to mitigate problematic saturated soils. Learn how to 1) design with this product using the Miraspec website, 2) save clients' money, and 3) reduce your carbon footprint on site.

EMERGING PROFESSIONALS WEBINAR BY A VALUED CALGEO AFFILIATE
