**DANIEL KRAMER, PG, CEG, PGP**  
President at Petralogix  
Engineering, Inc.

## **DANIEL KRAMER, PG, CEG, PGP, BIOGRAPHY**

Daniel E. Kramer is a Professional Geologist and Geophysicist whose experience includes more than 20 years of geo-engineering and hazard assessments for government, private and educational sector projects across the USA. He holds his MSc in Geology and is licensed as a Professional Geologist (#8657), Certified Engineering Geologist (#2588), and Professional Geophysicist (#1078). He has specific research expertise from California State University Sacramento (CSUS) and UC Davis in Tectonics and the use of geophysical methods to determine geohazards. He has also served on the California Geophysical Board as a Subject Matter Expert (SME) and as a Lecturer at California State University, Stanislaus in Exploration Geophysics.
