

# 2024 EPISODE II: EP WEBINARS BY EPs

## BORING STUFF: PRACTICAL TIPS AND LESSONS LEARNED IN SOIL LOGGING

FRIDAY, SEPTEMBER 6 | 11 – 11:30 AM | Zoom

**REGISTER  
NOW**

- How to prepare for logging: Supplies, planning, and project understanding
- Tips for a smooth field experience: Organization, creating a routine, collecting the right data, best practices for site management
- Office work: Selecting samples for lab testing, digitizing logs, and well completion reports
- Discussion of common mistakes and lessons learned from staff of all levels

### **Lane Klansek, EIT**

*Project Engineer, GEI Consultants*

Lane Klansek is a Project Engineer at GEI Consultants, Inc. She earned her bachelor's and master's degrees from UC Berkeley in 2020 and 2021 before entering the industry. Her experience includes geotechnical field work and design, primarily in the dam and levee, mining, and solid waste industries. She has worked on numerous projects that included geotechnical explorations, lab testing, characterization of material properties, and slope stability and seepage analyses.
