Even on the most complicated project sites, human beings are the most important (and most challenging!) variable when it comes to operational excellence. Safety offers essential common ground for engaging people and bringing teams together. This interactive workshop will give participants new tools for:

BUILDING PSYCHOLOGICAL SAFETY

Use Neuro-leadership to Lead Multi-Generational Teams

LEADING WITH EMOTIONAL INTELLIGENCE

Harness Emotional Intelligence to Strengthen Collaboration and Increase Productivity

IMPLEMENTING SYSTEMS TO ACHIEVE AND SUSTAIN SAFETY EXCELLENCE

Engineer Human Performance to Close Performance Gaps
