

# **THIRD-PARTY REVIEW OF GEOTECHNICAL REPORTS: FEEDBACK SESSION**

***COME TO LISTEN IN OR TO SHARE THE OPEN MIC***

**TUESDAY, MAY 13 | 11 AM–NOON | ZOOM**

**REGISTER  
NOW**

*CalGeo holds the position that agencies, owners, consultants, and adjacent industries can often benefit from local, third-party peer review of geotechnical reports. This discussion seeks your input on best practices as well as lessons learned when engaging local, third-party peer review for geotechnical projects.*

**Join us in this collaborative discussion to consider:**

- **How peer review protects the agency, owner, and consultant**
- **Strengths in peer review processes (yours or others)**
- **Missteps encountered in the peer review process**
- **Costs and benefits of peer review**
- **Retaining the right amount and type of firms**
- **Establishing a renewal process in retaining firms**
- **Engaging local expertise while avoiding conflicts of interest**
