6:30 PM PRESENTATION BY ADDA ATHANASOPOULOS-ZEKKOS, PHD

REGISTER NOW

ADDA ATHANASOPOULOS-ZEKKOS, PHD
Associate Professor
UC Berkeley

Adda Athanasopoulos-Zekkos is an Associate Professor of Civil and Environmental Engineering at UC Berkeley. Zekkos' research focuses on assessing and mitigating the impact of multi-hazard stressors on geotechnical engineering infrastructure. Her research aims to address infrastructure challenges, including age-related deterioration, population growth and densification, natural and manmade hazards, and evolving demands from climate change. She also received the prestigious National Science Foundation award and the Thomas Middlebrooks Award from the American Society of Civil Engineers (ASCE).
