Jennifer Horne, ACEC California's Policy Outreach Director, is the point of contact for all issues related to Qualifications-Based Selection; the procurement method that federal, state, and local agencies are required to utilize in their selection of engineers, land surveyors, and other design professionals. As the Policy Outreach Director, Jennifer is spearheading a campaign to equip ACEC California's members with an understanding of QBS law and educate local agencies about QBS statute and benefits. She also accepts RFPs/RFQs that contain QBS violations and confidentially engages with agencies on behalf of member firms. Jennifer serves as staff liaison to the QBS and Local Agency Contracts, Caltrans Liaison, and Prevailing Wage Law committees, as well as the Caltrans Advisory Group.
