

2025 VALUE REPORT

WE BUILD CALIFORNIA FROM THE GROUND UP

MISSION

CalGeo is the leading association dedicated to advancing geoprofessionals and related businesses in California. We foster industry excellence through collaboration, education, professional development, and student engagement while actively addressing the business and public policy issues that impact our profession.

VISION

To be the leading voice and resource that drives excellence, innovation, and advocacy for the geoprofessional industry in California.

ORGANIZATIONAL APPROACH

Under the Board's strategic leadership, CalGeo accomplishes its goals through the actions of its committees and day-to-day execution provided by its Executive Director and Management Team.

SHOUT OUTS

As a senior geotechnical engineer practicing in the San Francisco Bay Area, I have come to depend on CalGeo for webinars, presentations, and conferences that keep me up to date with the most current geotechnical standard of practice in California. CalGeo also provides fun and informative in-person networking opportunities through their annual conference

and local events that give me the chance to talk face-to-face with the leaders shaping our industry. BSK has come to rely on CalGeo for training opportunities for staff that are fresh out of college to those in senior leadership. I would recommend becoming a CalGeo member to every Geoprofessional firm in California. There is tremendous value to realize!

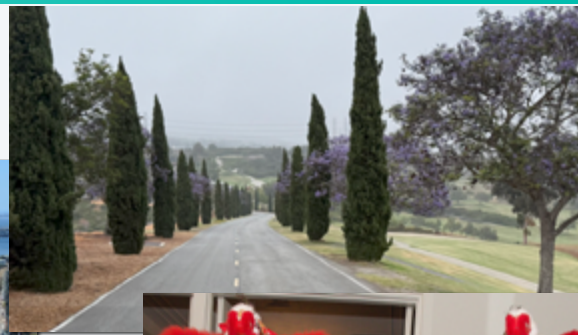

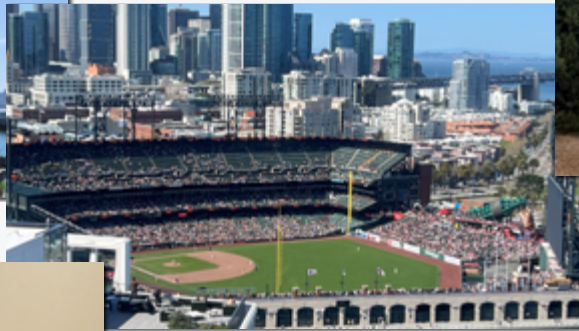

CARRIE RODRIGUEZ, PE, GE
GEOTECHNICAL GROUP MANAGER
BSK ASSOCIATES

I have really enjoyed taking both the PSHA and TH classes with Dr. Abrahamson. He is an excellent instructor, and I really enjoy his presentation of various points of view and associated pros and cons. He is always willing to answer questions, and he really went above and beyond for the TH class.

JAMES M. EVANS, JR., PE
REGIONAL TECHNICAL SPECIALIST - GEOTECHNICAL MVD
USACE-MEMPHIS DISTRICT
