

CAL POLY CAL GEO

SPONSORSHIP PROPOSAL

2023-2024

Dear California Geotechnical Engineering Association representatives,

Cal Poly CalGeo's (CPCG) student chapter of the California Geotechnical Engineering Association (CalGeo) is a nonprofit, student-run organization with the goal to provide our members with resources to develop interest, skills, and connections in the geoprofessional workforce.

During the COVID-19 pandemic, the size of CPCG shrunk and is continuing to build back up to the pre-pandemic involvement levels. In the past, we have held information sessions with practicing firms, toured project sites, offices and labs, attended professional conferences, held social events, coordinated professional development opportunities, and dug deep into the vast field of geotechnical engineering. We continue to be a primary resource for students interested in pursuing geoprofessional careers. As a student chapter, it is our responsibility and privilege to be a welcoming body for all students interested in geoprofessional opportunities.

GEOWALL

CPCG, in collaboration with the Society of Civil Engineer (SCE) on campus, is the home of GeoWall, our award-winning geotechnical engineering project team. GeoWall is a student-run project team traditionally tasked with designing and building small-scale mechanically stabilized earth (MSE) retaining systems. Our team attempts to use the least amount of reinforcement to support backfill loads and any additional annual design parameters. The team works together throughout the school year to perform laboratory testing, design and analyze MSE retaining wall systems, and compete in annual National and Regional competitions against other universities.

EVENTS

As the Cal Poly CalGeo club continues to grow, we will continue offer opportunities for members to connect with fellow peers interested in geoprofessions and network with geoprofessionals through events such as:

- Bi-weekly industry presentations
- Geotechnical info sessions
- Geotechnical engineering networking sessions
- Attendance to the Annual CalGeo Conference in April

- GeoWall Regional and National Competitions
- Site tours
- Social events
- And more!

To support student success in CPCG, we kindly request a sponsorship of \$1,000 from you and/or your firm. All sponsorships go directly into funding enriching events for our students and industry partners for years to come. A full sponsorship will ensure your company's logo on this year's CPCG GeoWall Box. Cal Poly CalGeo recognizes not all individuals or firms will be able to provide our full sponsorship and will be grateful for any donations.

CONTRIBUTIONS

If you choose to make a contribution to the Cal Poly CalGeo Club, please follow the steps below.

ONLINE

- Visit our online donation website using the following URL:
<http://tinyurl.com/CPCGSponsorship>
- Fill out your company's information and pay via credit card

BY CHECK

- Include the name of your company or organization in the envelope
- Please make checks payable to **Cal Poly CalGeo Club** and send to the address below:
 - UU Epicenter, Box #73
1 Grand Ave
San Luis Obispo, CA 93407

Please email hhumbarg@calpoly.edu and cwill124@calpoly.edu for confirmation of your sponsorship so we can properly thank all those who support Cal Poly CalGeo!

THANK YOU FOR YOUR CONTINUED SUPPORT!

2023-2024 CAL POLY CALGEO BOARD MEMBERS
