Fullerton, CA 92831

Re: Request For Sponsorship CSUF CalGeo Student Chapter

Dear potential sponsors,

For over 12 years, California State University, Fullerton has proudly sent a team of talented civil engineering students to compete in the American Society of Civil Engineers' Geo-Institute Geo-Challenge. This prestigious national competition brings together top student teams from across the country to showcase their skills in five challenging events: GeoWall, GeoShirt, GeoPoster, GeoVideo, and GeoPrediction.

CalGeo's GeoWall team consistently ranks among the nation's best. The Geowall competition, in particular, challenges teams to design and construct miniature MSE retaining walls using unconventional materials like kraft paper to withstand sand and various loads. Our CSUF CalGeo team has a proven track record of success. In 2018, we secured 2nd place overall at the International Foundations Conference and Equipment Expo (IFCEE) in Orlando, Florida. Additionally, our design reports claimed 1st place nationally in both 2017 and 2018. Impressively, our team has maintained a 10-year 1st place streak of regional victories, even amidst changes in faculty, staff, and team members.

This year's team is a dynamic mix of experienced and enthusiastic students, with four new members joining forces with returning competitors to tackle the GeoWall, GeoShirt, and GeoVideo design challenges.

The 2025 Geo-Challenge Student Competitions will be held at Geotechnical Frontiers 2025 in Louisville, Kentucky, from March 2nd to 5th. With support from people like you, we can continue our legacy of excellence and ensure our team's participation in this year's competition. Your sponsorship will directly contribute to our success by providing essential funding for travel, materials, and other expenses.

With your invaluable support, we can continue to excel as geotechnical engineering students and prepare for successful careers. We're committed to representing our university and our sponsors with distinction. Please review the attached sponsorship form to learn more about our anticipated costs and sponsorship packages.

Thank you for your time and consideration. Please don't hesitate to contact us with any questions or concerns.

Sincerely,

Jonathan Olvera
